

Build Your Own Block (BYOB) Course Structure – 2025-26

BYOB courses will be offered Blocks 5-6 during the 2025-26 academic year. Specific course combination options are listed on the reverse side.

BYOB courses meet **every other day for two blocks** (18 days) rather than every day for one block (18 days) as a normal CC course would. Combining two BYOB courses yields the same two-units over two blocks that typical CC courses yield.

**Block 5-6 BYOB courses cannot be combined with non-BYOB Block 5 or 6 courses because the class days would conflict.*

BYOB Class Meeting Schedules

BYOB “A” courses can be combined with BYOB “B” courses for full enrolment.
