SENIOR CLASS MOTTO

“In a time of destruction, create something.”

Maxine Hong Kingston

COLORADO COLLEGE ALMA MATER

(“O Colorado College Fair”)

*Words and music written in 1953 by Charles
Hawley '54
and Professors Earl Juhas and Albert Seay*

O Colorado College fair,
We sing our praise to you;
Eternal as the Rockies,
that form our western view;
Your loyal sons and daughters
will always grateful be;
The college dear to all our hearts
is our C.C.

O Colorado College fair,
Long may your fame be known;
May fortune smile upon you,
and honor be your own;
Our Alma Mater always,
Your loyal children we;
Together let us face the future,
Hail C.C.

Audience: Please join us in singing.

SENIOR CLASS GIFT

Commemorate your senior year by contributing to the Senior Class Gift! As a CC tradition, the senior class gift is a moment to celebrate your time here by supporting a cause that aligns with your student experience, values, and philanthropic interests. Give to initiatives like mental health, sustainability, financial aid, the CC Food Pantry, the LGBTQ Discretionary Fund, student access, antiracism, and others. Your gift is a pledge to the future of CC and a legacy that endures beyond graduation. Let's make a difference for the next generation of Tigers!

LAND ACKNOWLEDGEMENT

We acknowledge that Colorado College is located within the unceded territory of the Ute Peoples. Other tribes who historically use, and continue to use, the land also include the Apache, Arapaho, Comanche, and Cheyenne. We ask you to honor the ancestors of our various peoples, nations, tribes, and families whose struggles for justice on this land inspire us.

Dear Class of 2024,

Congratulations! Your hard work, passion, and commitment have culminated in this remarkable achievement — your graduation from Colorado College.

You enrolled at CC in the middle of a pandemic, after your senior year of high school was upended in ways you never could have imagined. You shifted between remote and in-person learning, not knowing when and how you would fully immerse yourself in our campus community. Anyone who chooses CC and the Block Plan is bold — but you took this leap of faith during a time in your life that was already filled with so much uncertainty. That takes extraordinary courage.

Over the next four years, your courage only grew. You took on challenging coursework, discovered new passions, and learned about yourself and the world around you. You spent time with dynamic professors who expanded your worldview, showing you how to think critically and integrate new ideas quickly in the immersive setting of the Block Plan. You had productive conversations with peers with whom you might disagree, and you learned how to listen with the intent to understand. You advocated for better mental health support on campus, championed the causes that were important to you, and supported your friends in times of need.

You fully participated in campus life. You joined student organizations, competed and cheered for our Tiger athletic teams, and created and enjoyed art, music, and theater performances. You contributed to the vibrancy of Colorado Springs and the Pikes Peak Region, volunteering and working with local nonprofits and businesses. You went on adventures you'll never forget, from backpacking in the Rocky Mountains to researching in Mexico to studying abroad in Italy. You built lifelong friendships that will continue long after you leave this campus.

Now, you will take everything you've learned at CC, and the perspectives you've gained here, into your next chapter. Your voice matters. The world needs your courage and conviction more than ever.

We are so proud of you. Keep in touch and come back to visit often. You will always have a home here at CC, and with our alumni community all over the world.

Sincerely,

JEFF KELLER '91, P'23

COMMENCEMENT

SPEAKER

Frieda Ekotto

Frieda Ekotto '86 is the Lorna Goodison Collegiate Professor of Afroamerican and African Studies, Comparative Literature, and Francophone Studies at the University of Michigan, Ann Arbor. In 1986, she became the first African woman to graduate from Colorado College. She went on to earn a Ph.D. in French and Comparative Literature from the University of Minnesota and began teaching in 1994 at the University of Michigan.

As an intellectual historian and philosopher with areas of expertise in 20th and 21st-century Anglophone and Francophone literature and in the cinema of West Africa and its diaspora, she concentrates on contemporary issues of law, race, and LGBTQIA2S+ issues. Her primary research to date has focused on how law serves to repress and mask the pain experienced by disenfranchised subjects; her intention in this work is to trace what cannot be said in order to address and expose suffering from a variety of angles and cultural intersections and reassess the position and agency of the dispossessed. She is the author of multiple books and numerous book chapters, as well as many articles in prestigious literary journals. She is currently working on LGBTQIA2S+ issues, with an emphasis on West African cultures within Africa as well as in Europe and the Americas.

In addition to her academic work, Ekotto is also a creative writer. She received the Nicolàs Guillèn Prize for Philosophical Literature in 2014, and in 2015, she was awarded the Benezet Award from her alma mater, Colorado College, for excellence in her field. In 2016, she was awarded the John H. D'Arms Faculty Award for Distinguished Graduate Mentoring in the Humanities at the University of Michigan, Ann Arbor. In 2018, she was awarded an Honorary Degree at Colorado College. She has produced two documentaries: in 2017, "Vibrancy of Silence: A Discussion with My Sisters," and in 2021, "Zurura Zurura: A Smile Blooms," as part of the ongoing research on Vibrancy of Silence: Images and Cultural Production of Sub-Saharan African Women. She is President of the Modern Language Association (2023–2024) and a member of the Colorado College Board of Trustees.

HONORARY DEGREE

Jim Rosenthal '70

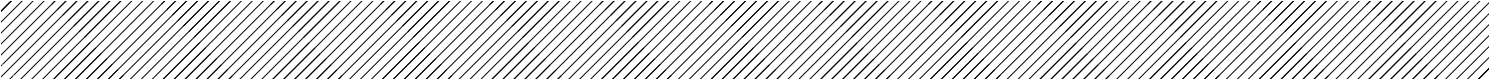

Jim Rosenthal is the Chairman and Chief Executive Officer of Tex-Air Filters. He is a 1970 graduate of Colorado College with a Bachelor's degree in Political Science, and he holds a Master's degree in Public and International Affairs from the University of Pittsburgh.

At the height of the COVID-19 pandemic in summer 2020, he co-developed, with Dr. Richard Corsi, the “Corsi-Rosenthal Box” — a low-cost, do-it-yourself air filter made from 4-5 MERV 13 air filters and a box fan. Rosenthal was nominated for an honorary degree by Dr. Emily Chan, Dean of the Faculty and Professor of Psychology, and Dr. Andrea Bruder, Associate Dean of the Faculty and Associate Professor of Mathematics and Computer Science. Dr. Bruder, who served as Public Health Advisor to the President during the COVID-19 pandemic, was building Corsi-Rosenthal boxes on the CC campus before she realized the co-inventor was an alumnus.

The device takes 20-30 minutes to build, costs less than \$100, and has been shown to be more effective than commercial HEPA air cleaners. It is open source, so people worldwide can build variations using materials available in their countries. An estimated 250,000-plus Corsi-Rosenthal Boxes have been built in the last four years to help protect people from airborne viruses and contaminants like wildfire smoke. The box has been tested and endorsed by the EPA, CDC and other independent laboratories. It has been featured in academic journals, trade publications, and mainstream media, including BBC, CBS, Fortune, The New York Times, NBC, NPR, Scientific American, Smithsonian Magazine, Toronto Star, Vox, and The Washington Post.

In his work with the Corsi-Rosenthal Box, Rosenthal embodies the core values of a Colorado College education. His innovative approach to building the box itself, paired with his commitment to serving the public health of communities everywhere, demonstrate the powerful impact of the liberal arts.

At CC, Rosenthal was the Exchange Student to the Netherlands School of International Business for the 1968-69 academic year, played on the men's golf and rugby teams, and was a dorm counselor. After earning his master's degree and working for several companies in international business, operations, and marketing, he started his own company in 1997.

Rosenthal is a lifelong learner and a firm believer in the value of a liberal arts education. He credits his CC education for giving him the skills to “learn how to learn,” and believes the liberal arts have given him perspective that has been invaluable in his business and professional career. His favorite and most helpful CC courses were English Writing, Speech, Art History, American and World History, Accounting 101, Behavioral Psychology, and anything taught by Dr. Fred Sondermann. Rosenthal's CC experience also gave him a deep appreciation for art and music. He is a passionate print collector and classical music enthusiast, and he helped forge a multi-year collaboration between the Fort Worth Symphony Orchestra Association and the Colorado College Summer Music Festival.

Rosenthal has more than 25 years of experience in the air filtration and environmental control industries. He served as president of the National Air Filtration Association (NAFA) from 2009-2010. In 2016, he received NAFA's Distinguished Service Award, and in 2020, its Lifetime Achievement Award. He was President of the Asthma and Allergy Foundation of America – Texas Chapter from 1998-2013.

He and his wife, Kathy Rosenthal (née Roman, Class of '71), reside in Fort Worth, Texas.

*“The liberal arts gave me the gift of learning that I have treasured my whole life ...
I didn't succeed in business because I took a lot of business courses.
It was because I learned to look at things in a different way – a bigger-picture view.”*

BACHELOR OF ARTS

One longstanding CC tradition is allowing graduating seniors to list their names in the Commencement program in any way they choose. Look carefully and you're sure to find several examples of this characteristic CC individuality.
