STATE OF THE ROCKIES PROJECT

Conservation in the West Poll

KEY FINDINGS

THE 2018 SURVEY OF THE ATTITUDES OF VOTERS IN EIGHT WESTERN STATES

JANUARY 2018

CONDUCTED BY: **LORI WEIGEL / PUBLIC OPINION STRATEGIES**
DAVE METZ / FAIRBANK, MASLIN, MAULLIN, METZ & ASSOCIATES

Methodology

- ❖ 3,200 telephone (cell and landline) interviews with 400 registered voters in eight states: Arizona, Colorado, Idaho, Montana, New Mexico, Nevada, Utah, Wyoming.
- ❖ Interviews conducted December 20, 2017 and January 2-8, 2018, in Spanish and English.
- ❖ The margin of overall sampling error is $\pm 2.65\%$ at the 95% confidence interval for the total sample; and $\pm 4.9\%$ for each state.
- ❖ The total numbers have been statistically weighted to reflect the true geographic distribution of voters throughout the region. Interviews within each state were distributed proportionally by region and each sample is demographically representative of their electorate.
- ❖ Comparisons made to similarly conducted surveys in 2011, 2012, 2013, 2014, 2015, 2016 & 2017; any trend data is based on seven states, rather than eight unless otherwise specified.
- ❖ Bi-partisan research team of Public Opinion Strategies (R) and Fairbank, Maslin, Maullin, Metz & Associates (D).

Outdoor Recreation

 THE COLORADO COLLEGE
STATE OF THE ROCKIES PROJECT
Conservation in the West Poll

Western voters are FAR more likely to identify as a conservationist today than just two years ago; increases in every single state.

Do you consider yourself to be a conservationist?

Three-quarters of Westerners identify as an outdoor recreation enthusiast.

74%

Consider Themselves an
Outdoor Recreation
Enthusiast

Do you consider yourself to be an outdoor recreation enthusiast?

And say that they engage in outdoor recreation activities.

For each of the following actions that have been taken or are being considered by officials in Washington, please tell me if that is something you support, oppose or don't feel strongly about it one way or the other.

Two-thirds of voters say they want to keep current plans to protect sage grouse habitat.

Three years ago, the U.S. government, Western states and governors created plans to protect habitat for the threatened sage grouse and other wildlife. The Interior Department now says these plans should be changed to allow more oil and gas production and other activities. Opponents of changes say that the plans had public input and were created in collaboration with states to avoid wildlife like the sage grouse becoming endangered.

Approval of Sage Grouse and Wildlife Protection Guidelines

Helps the economy of nearby communities	46%	41%	47%	51%
Hurts the economy of your state	10%	13%	6%	10%
Ties up too much land that could be put to other uses	9%	14%	8%	4%

I'm going to read you a list of words and phrases, and please tell me whether you think each one describes national monuments in the West. Does it describe them -- very well, somewhat well, not very well, or not at all?

Two-thirds of Westerners say it is a bad idea to reduce the size of Bears Ears and Grand Staircase Escalante.

Thinking specifically about two national monuments in Utah – Bears Ears and Grand Staircase Escalante, which contain fossils, petroglyphs, cliff dwellings and wildlife habitat - President Trump announced in December that the administration would remove existing national monument protections and reduce the size of the lands conserved as national monuments by approximately two million acres.

Evaluation of UT National Monuments Reduction

■ Very Good Idea ■ Total Good Idea
■ Very Bad Idea ■ Total Bad Idea

Would you say that it is - a good idea or a bad idea - to reduce the size of these national monuments?

Majority in seven of eight states say bad idea; Utah is divided.

Evaluation of National Monuments Reduction – By State

■ Very Good Idea
 ■ Total Good Idea
 ■ Very Bad Idea
 ■ Total Bad Idea

Would you say that it is - a good idea or a bad idea - to reduce the size of these national monuments?

There is a significant partisan distinction, with GOP voters divided and strong opposition among everyone else.

Evaluation of National Monuments Reduction – By Party

Would you say that it is - a good idea or a bad idea - to reduce the size of these national monuments?

Moving forward, majority of voters say it is a bad idea to reduce the size or change the status of other Monuments.

Evaluation of Additional Monuments Changes – By State

The administration has indicated that it may eliminate protections or reduce the size of other national monuments in the West as well. Would you say that it is - a good idea or a bad idea - to reduce the size or protections at other national monuments?

Note: Question not asked in Nevada or New Mexico

Independents and Democrats decidedly against; GOP divided over future changes.

Evaluation of Additional Monuments Changes – By Party

Would you say that it is - a good idea or a bad idea - to reduce the size of these national monuments?

By greater than a three-to-one margin, Nevadans say scaling back Gold Butte is a bad idea.

The administration has indicated that it may scale back or eliminate national monument protection for the newly established Gold Butte National Monument, just south of Lake Mead.

Evaluation of Gold Butte Protection
- Nevada Only -

■ Very Good Idea ■ Total Good Idea
■ Very Bad Idea ■ Total Bad Idea

Do you think this is more of a good thing for the state, more of a bad thing for the state, or do you not have an opinion one way or the other?

More than two-thirds of NM voters say it would be a bad idea to change monuments in their state.

The administration has indicated that it may eliminate protections for national monument lands in New Mexico, including the Organ Mountains-Desert Peaks and Rio Grande del Norte National Monuments.

Evaluation of Organ Mountains-Desert Peaks and Rio Grande del Norte National Monuments Protection
- New Mexico Only -

■ Very Good Idea ■ Total Good Idea
■ Very Bad Idea ■ Total Bad Idea

Rural Voters

 THE COLORADO COLLEGE
STATE OF THE ROCKIES PROJECT
Conservation in the West Poll

A majority in half of these states say they live in a rural area or small town.

Area Description

Small Town – 23%

Rural Area – 19%

Most urban and suburban voters have rural roots.

68%

Of those living in a city or suburb now once lived in a small town or rural area.

Fewer than one-in-five have no rural connection.

18%

Of Western voters have not lived in a small town or rural area at some point.

Far more Westerners feel they share the values of small town and rural residents than urban ones.

Values Shared with Big City Residents

Values Shared with Rural/Small Town Residents

■ Very Similar
■ Total Similar
■ Very Different
■ Total Different

Thinking some more about people in the Western United States - do you think most people who live in big cities have values that are similar or different from yours?

The gap exists in every state – most pronounced in Montana and Wyoming.

Values Shared with City v. Rural Residents – By State

■ Similar values shared with big city residents

■ Similar values shared with rural/small town residents

And in general, would you prefer the administration place more emphasis on...

Among those urban and suburban voters who used to live in a small town or rural area, they are more apt to identify more closely with their roots.

67%
49%

Of current urban/ suburbanites with rural roots say they identify with values of SMALL TOWN OR RURAL residents.

Of current urban/ suburbanites with rural roots say they identify with values of BIG CITY residents.

Do you think most people who live in big cities have values that are similar or different from yours?

Majorities of rural voters tend to side with pro-conservation policies, even if their enthusiasm is more muted than voters overall.

	Total	Rural Voters
Oppose allowing mining on public lands by Grand Canyon	70%	64%
Choose solar or wind as representing future of energy in their state	67%	58%
Say bad idea to reduce size of Utah National monuments	66%	60%
Keep current sage grouse plans in place, rather than change	64%	56%

Water

**THE COLORADO COLLEGE
STATE OF THE ROCKIES PROJECT
Conservation in the West Poll**

Every conservation issue is now more likely to be seen as a very serious problem than the economy.

Problems Ranked by % Extremely/Very Serious

Next, I'm going to read you a list of issues some people say are problems in (STATE). For each one, please tell me if you think it is an extremely serious problem, a very serious problem, a somewhat serious problem, or not a problem in (STATE).

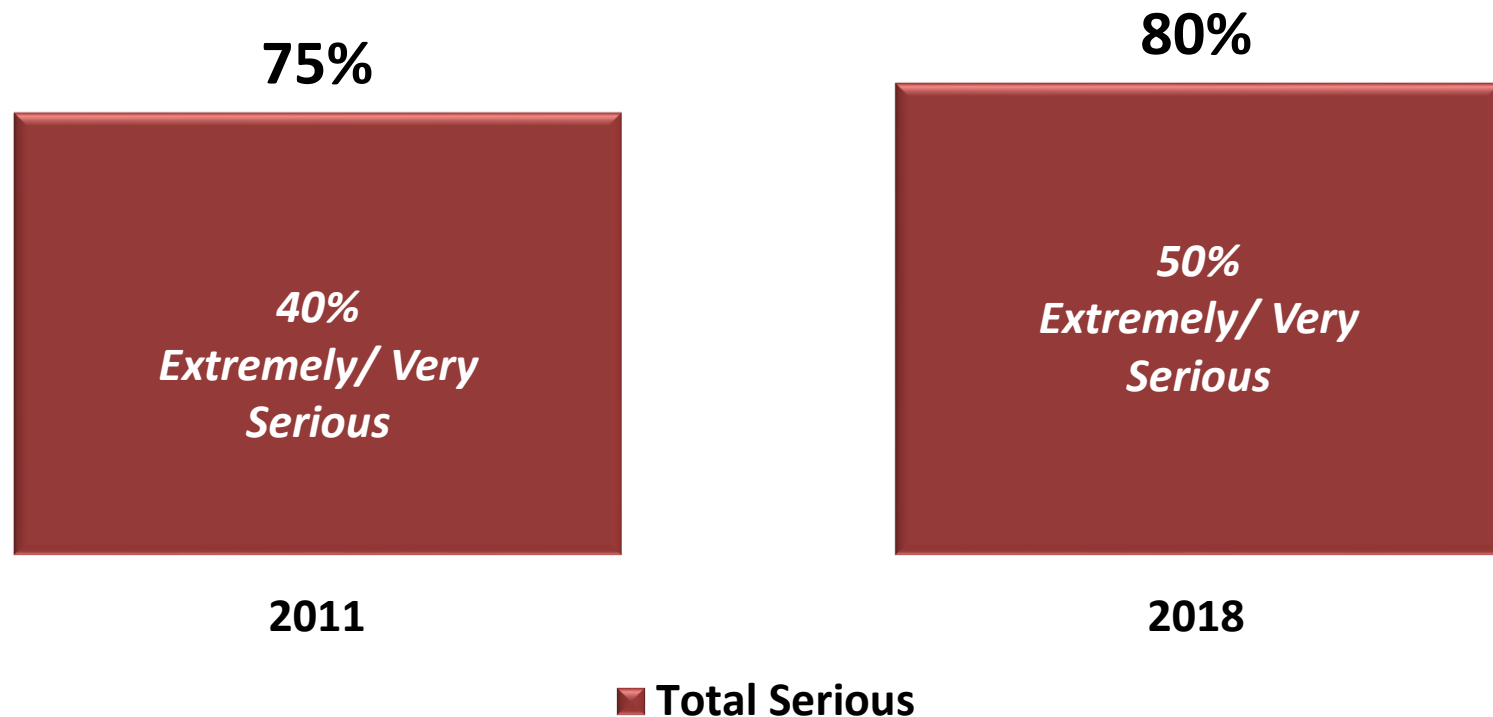

There are jumps in concern about conservation issues, especially fire.

<i>Problems Ranked by % 2016 Extremely/Very Serious</i>	2016	2017	2018
Low levels of water in rivers	51%	51%	53%
Unemployment	43%	37%	34%
Pollution of rivers, lakes and streams	38%	34%	43%
Poorly-planned growth and development	35%	33%	43%
Loss of habitat for fish and wildlife	33%	31%	42%
Uncontrollable wildfires that threaten homes and property	32%	N/A	47%
Lack of resources to properly maintain and take care of national parks, forests and other public lands	27%	24%	37%
Our dependence on fossil fuels	N/A	31%	38%

Next, I'm going to read you a list of issues some people say are problems in (STATE). For each one, please tell me if you think it is an extremely serious problem, a very serious problem, a somewhat serious problem, or not a problem in (STATE).

Inadequate water supplies is a greater concern today than seven years ago.

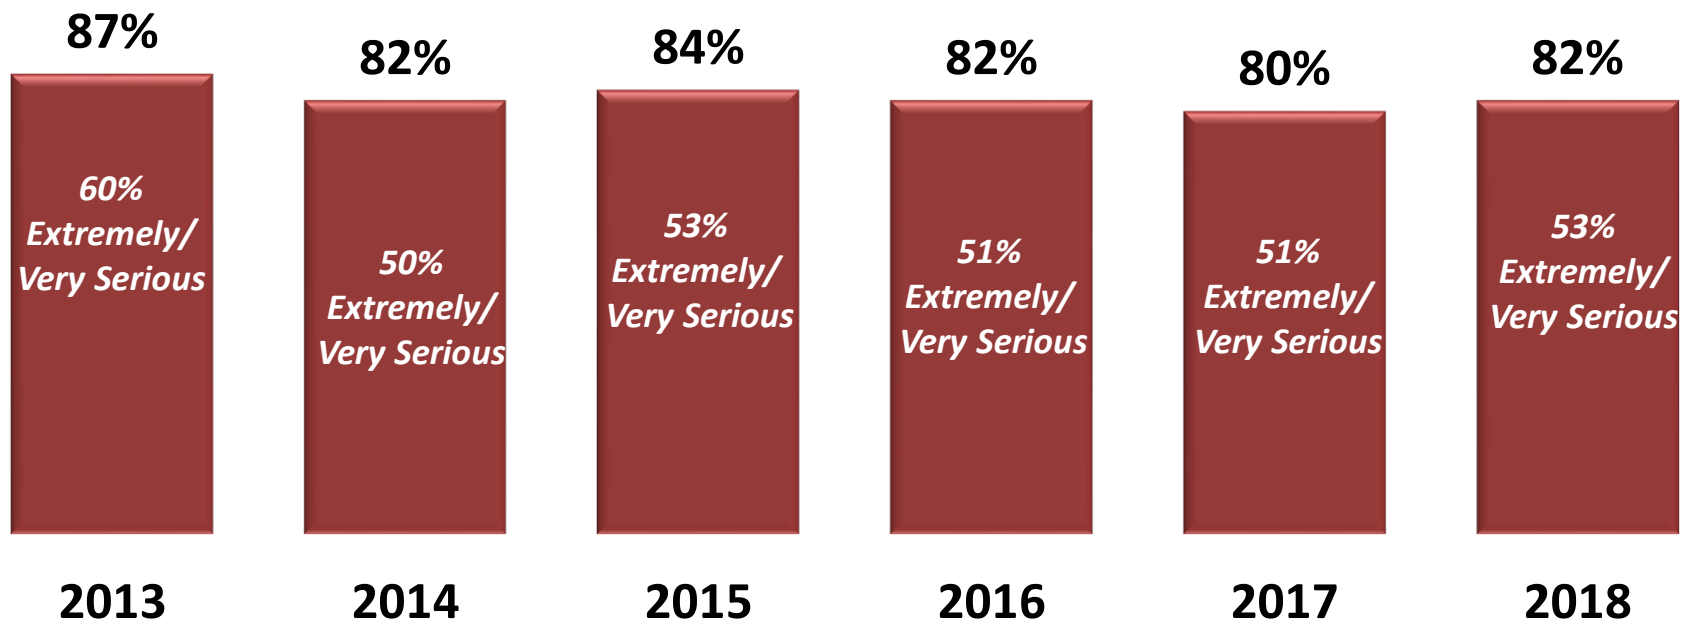

Inadequate Water Supplies Viewed as a Serious Problem – Trend

For each one, please tell me if you think it is an extremely serious problem, a very serious problem, a somewhat serious problem, or not a problem in (STATE).

At least four-in-five Westerners have viewed the condition of rivers as a serious problem facing their state for the last six years.

Low Levels of Water Viewed as a Serious Problem – Trend

■ Total Serious

2013-2015 excludes NV; all trend excludes ID

For each one, please tell me if you think it is an extremely serious problem, a very serious problem, a somewhat serious problem, or not a problem in (STATE).

There are some geographic differences in level of concern regarding rivers this year.

Low Levels of Water Viewed as a Serious Problem – By State

For each one, please tell me if you think it is an extremely serious problem, a very serious problem, a somewhat serious problem, or not a problem in (STATE).

By a six-to-one margin, Westerners say they want an emphasis on conservation over diversions to cities.

2016

2018

Using our current water supply more wisely, by encouraging more water conservation, reducing use, and increasing recycling of water.

77% 78%

Diverting more water from rivers in less populated areas of the state to communities where more people live.

15% 13%

Note: Question not asked in Idaho or Montana

Many experts say that STATE will likely face water shortage situations in the future. They say that we face a choice in how we address that shortage. So, which one of the following would you prefer state water officials invest more time and resources in pursuing?

Emphasizing conservation and recycling of water is strongly preferred in every state where this is an issue.

Preferred Water Approach – By State

■ Using our current water supply more wisely ■ Diverting more water from rivers in less populated areas

Note: Question not asked in Idaho or Montana

So, which one of the following would you prefer state water officials invest more time and resources in pursuing?

Voters in states along the Colorado River view it as "at risk."

View of the Colorado River At Risk – By State

Note: Question only asked in these four states

Thinking specifically about the Colorado River and the rivers and streams which flow into it in (STATE) – I'm going to read you a list of words and phrases, and please tell me whether you think each one describes the Colorado River very well, somewhat well, not very well, or not at all? - AT RISK

They also view it as a national treasure and critical to their economy and recreation.

<i>Describes Colorado River Well Ranked by Average</i>	Arizona	Colorado	Nevada	Utah	Average
A National Treasure that Should Be Protected	94%	94%	89%	91%	92%
